SECOND STAGE EVENT SCHEDULE

August 25, 2005

1:00 – 3:00 PM  Upper-Division Coursework and Culture; 375 LeConte Hall
What’s it like to be an upper-division physics/astro major at Cal? Find out in this panel discussion. We’ll talk about how to do well in more difficult classes and labs, discover where to get help when necessary, and hear words of wisdom from students who’ve been there.

3:00 - 4:00 PM  Research: Finding It, Doing It, Finishing It; 375 LeConte Hall
Research experience is an important part of a physics or astronomy major’s education. This workshop will cover research opportunities available to Cal students, how and when to seek out an adviser or lab, and what to do once your project is well underway.

4:00 - 5:00 PM  What Comes Next? 375 LeConte Hall
What can you do with a physics or astronomy degree? The options are limitless. Find out about many of them here. Our guests will represent the UC Berkeley career center, former Cal students, and local scientists working in a variety of careers.

5:30 - 7:00 PM  Catered Dinner; 375 LeConte
Join us for a free dinner with your fellow junior and transfer students, as well as upper-division professors from both departments. We have room for 15 students at dinner; please RSVP to be one of them by sending email to SWPS. Otherwise, it will be first come, first served.

Sponsored by the Society for Women in the Physical Sciences
